➤ Read Contest Notice

When login into the system, a notice will be presented to you, it tells you some important rules related to scoring. Please read the notice carefully. If your submissions violate the rules, they may be judged as WRONG.

You can only read the notice before competition start.

The screenshot shows the Lanqiao Competition website interface. At the top, there is a header with the logo and text "LAN QIAO COMPETITION 蓝桥杯大赛" on the left, and "中文 Logout" on the right. Below the header, the main content area displays "Lanqiao Competition, C/C++ Class A" and "No unread messages." On the left side, there is a user profile for "John Smith" with options for "所有考场" and a clock showing "20:26:48". In the center, there are three main action buttons: "Notice" (with a bell icon and "> VIEW"), "Tasks" (with a download icon and "> Waiting"), and "Answer" (with a document icon and "> Waiting"). Below these buttons, a "NOTICE" section is visible, titled "Lanqiao Competition" and "Notice". The notice contains several bullet points:

- Please download tasks when contest starts. A password will be provided for decrypt the task file.
- The contest lasts for 4 hours. Only submissions during these 4 hours are accepted. Any submission after contest time will be denied.
- The answers should be submitted via web client (this website). Other submissions (such as emails, USB disks) are INVALID for judging.
- Contestants are allowed to review submitted answers and resubmit an answer at any time during the contest, only the last submission is saved and judged for each task.
- For each task, you should provide an unified program file as an answer. The content of the program file should be copied and pasted to the submission area of this website.
- Programs should only include standard header files, such as `<stdio.h>`, `<stdlib.h>`, `<string.h>`, `<math.h>`, `<iostream>`, `<map>`, `<set>`, etc.. Standard Template Library (STL) can be included in programs. The answer should NOT include any user defined

For a programming task, please choose the correct compile language of your program. Do not choose C as compile language if you are writing a C++ program. C++ may be the language if you

can not distinguish C from C++.

It is suggested that you write your own program in a third party IDE such as Dev-CPP, Code::Blocks or Eclipse. Directly write programs in our system may take risk of losing data when the network connection is not stable.

You are allowed to review submitted answers and resubmit an answer at any time during the contest, only the last submission is saved and judged for each task.

➤ Finish Competition

When the contest is over, just close the web browser. Your submission will be judged by the system automatically.
